EXHAUST MANIFOLD For EJ25

Headers for EJ25 Engines

Big Power from equal length, Amazing Response from unequal length, Combine that theory = EXPREME EJ Series Headers.

TOMEI Supreme Exhaust System
EXPREME

**The long-awaited
4-2-1 isometric
type is near
completion!**

4-2-1 isometric design for optimum results at high end RPM.

Our EXPREME Exhaust products are being used all over the world and are well known for its performance gains, unique designs, fabrication quality and value for money. With the TOMEI exhaust technology & design philosophy of Power, Torque & Feeling we have made this new revolutionary design. This new design is near completion with an all round perfect performance balance to maximize the EJ25 turbines potential. EXPREME: we don't just follow trends & traditions, We set new standards!

POINT 1 Perfect Pipe Size, All Equal Length.

We designed the headers to be the 4-2-1 layout with ϕ 42.7mm, ϕ 45.0mm, ϕ 60.0mm sizes to help extract the absolute maximum from your EJ25 turbine with the equal length design. The exhaust pressure is controlled best by this layout & you can see the peak power gains & at high RPM.

POINT 2 Stronger, More Precise Lost Wax Collector.

The Lost Wax process was used to eliminate cracking from welded weak points and for aiding smoother exhaust gas flow without any interference.

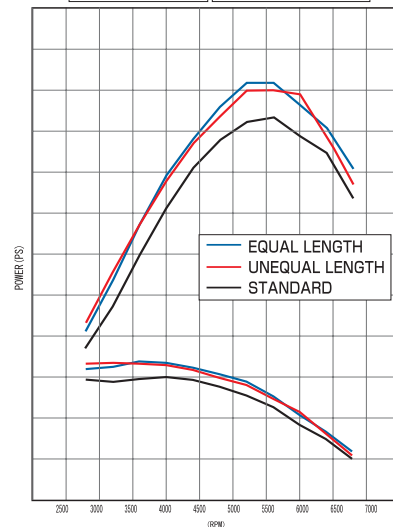

POINT 3 An All New Boxer Sound!

You will have a new higher pitched racing sound from this isometric design. With 2.5mm thick pipes made from SUS304 stainless steel.

ENGINE DYNO RESULTS

ENGINE TYPE EJ25 PURPOSE HEADER COMPARISON
BOOST SETTING Gain 70 SPECS EJ25 STANDARD ENGINE

MSRP: \$990.00 (USD)

PART No. 193105

Engine Type	Material	Pipe Diameter			Pipe Thickness	Weight	Design
		4	2	1			
EJ25	SUS304	ϕ 42.7mm	ϕ 45.0mm	ϕ 60.0mm	2.5mm	8.85kg (Normal 13.9kg)	4-2-1
		ϕ 1 5/8"	ϕ 1.77"	ϕ 2.36"			

**The perfect design for Response,
Our 4-1 superior non equal length design.**

MSRP: \$800.00 (USD)

PART No. 193082

Engine Type	Material	Pipe Diameter		Pipe Thickness	Weight	Design
		4	1			
EJ25	SUS304	ϕ 42.7mm	ϕ 42.7mm	2.5mm	9.20kg (Normal 13.3kg)	4-1
		ϕ 1 5/8"	ϕ 1 5/8"
